President's Message:

Greetings all! With 2010 coming to an end we all know what that means! Yep, dues are coming due! Ken Hunt our treasurer will be heading to the warm and sunny south real soon, so please let's all get paid up this coming meeting!

November's guest speaker will be Walt Peters, a second generation shop owner who will be talking about the history of his shop and be showing pictures also! His hobbies also include model Railroading and may have some to show. Also, we will still be having our regular meeting and "show and tell", so don't forget to bring a tip, trick or project along for the meeting!

December's meeting will be our annual Christmas party and board members election. (hint, hint)

Not much else going on, so stay warm and we'll see ya Wednesday! Rick

Steve Huck's miniature cube

Next meeting: 11-10-10 7 PM Macomb Community College South Campus North Lobby of S Building. Minutes of Meeting of 13 October 2010 President Rick Chownyk opened the meeting at 7pm with a review of the process of access into the MDMC website.

He also introduced a visitor, Mike Danko, the local representative of the NAMES show, which will be available this coming year on 30 April thru 1 May, 2011. Rick also discussed a Ferndale teck group, available at I3

Detroit.com. (That website is the Capitol letter I and the number 3.)

Ken Hunt indicated no change in the treasury balance from that of the previous month, of \$714.55. David Clark presented a split gear and teeter-totter parts to hold metal parts during machining.

Steve Huck presented Issue #1 of the MDMC monthly newsletter and requested that the membership supply any others they would be willing to supply to enable him to gather a complete set.

Bert Campbell presented a substantial supply of drawings of various hardware and machinery which he had gathered from online sources.

Rick Chownyk demonstrated a modification of an adalpter plate purchased from Wholesale Tool, which supported the lathe chuck of another club member James Howard, Metro Detroit Metalworking Club
